

2024 Warbler Walks at Meadowbrook!

Dianne Rozak will lead public Warbler Walks at Meadowbrook Marsh at 10 a.m. on Tuesday, May 14, Saturday, May 18 and Sunday, May 19. We'll look for colorful warblers and other migratory birds as they descend upon our coast in large numbers.

Binoculars and cameras are highly recommended. Dress for the weather, wear waterproof shoes or boots and consider using bug spray. Portable restroom facilities are available. This will be a QUIET walk at a snail's pace.

Parking is limited down the hill but available at the top entrance in the grassy area fronting Bayshore Road. Regardless of where you park, WE WILL BEGIN AT THE TOP ENTRANCE BY THE LARGE "MEADOWBROOK MARSH" SIGN. There will be a brief overview then the fun will begin! Join us for an amazing experience and stay as long as you like. Weather permitting, we'll be meandering for at least two hours.

No experience or reservations necessary!

Meadowbrook Marsh 8577 E. Bayshore Road in Danbury Township

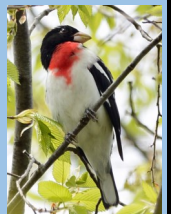

Left to right: Blackpoll Warbler, Northern Parula, Yellow Warbler, Blackburnian Warbler, Magnolia Warbler, Scarlet Tanager

The walk will be conducted rain or shine but not if we are experiencing heavy rain, thunderstorms or severe weather. If you are unsure if the walk will go on, please call or text Dianne that morning: (419) 340-9359.

HERE'S A TIP! Download the "Merlin" app for your smartphone. In the App Store it's known as "Merlin Bird ID by Cornell Lab". It's free, fun, informative and you will be surprised at how quickly you can learn bird calls and identification. Try it in your backyard or on your next hike.

We'll be using it on the Warbler Walks.

LEARN WHAT'S FLYING OVER YOUR HEAD DURING SPRINGTIME!

Dianne will be happy to answer your email, text or phone questions prior to the walk days:
