Article 3: Zoning Districts

SECTION 3.1 OFFICIAL ZONING MAP

1. The location and boundaries of the Districts shall be shown on the map entitled, "Danbury Township Zoning Plan, 1975", as amended. A certified copy of this map is on file in the office of the Board of Danbury Trustees, and said map and all notations, dimensions and designations shown thereon are hereby declared to be a part of this Resolution.

SECTION 3.2 BOUNDARIES

1. Where there is uncertainty as to the boundaries of any of the Districts shown on the aforesaid map, the following shall apply:
 - A. The District boundary lines are intended to follow street, alley, lot or property lines as they exist at the time of the passage of this Resolution unless otherwise indicated by dimensions on the Zoning Map. In case of the vacation of a street, alley, watercourse or other right-of-way, the abutting zoning classification on each side thereof shall automatically be extended to the centerline of said vacated street, alley, watercourse or right-of-way.
 - B. Where boundaries appear to approximately follow such aforesaid lines and are not more than ten (10) feet distant therefrom, such lines shall be construed to be the boundary unless specifically shown otherwise.
 - C. All submerged lands (below low water datum, which is 568.6 feet) are a part of that District to which their abutting natural above-water lands are assigned and shall be bounded by extension of the boundary lines of each abutting natural above-water property. Two (2) adjacent districts which extend onto submerged lands shall be separated by extension of their above water common boundary line.

Article 4: Use Standards

It is recognized that an increasing number of new types of uses are appearing daily and that experience with some of the more conventional uses call for a more flexible procedure so that these uses might be accommodated in the Township. Due to the peculiar nature of some uses, it is felt that each use should be given more detailed consideration as it relates to location, design, size, method of operation, traffic movements, concentration of population, and the kinds of public facilities and services it requires. This Article outlines the additional standards some permitted uses listed in [Article 3](#) must follow in order to be approved administratively. Conditional Uses listed in [Article, Section 3.4](#) must also follow these standards, but are subject to review by the Board of Zoning Appeals in accordance with [Article 7, Section 7.11](#).

The site plan shall also identify the location of all structures adjoining, or adjacent to, the perimeter boundary of the proposed airport, helipad or landing strip development site.  - ii. When the existing use has new ownership which results in a change in the name or logo of the use or business on the property, and such change complies with subsection “iv” below;
 - iii. When the space is reoccupied by a similar use and the new occupant requires no external building or site renovation, and such change complies with subsection “iv” below;
 - iv. Any alteration, modification or reconstruction permitted in this section shall be limited to the replacement of a sign panel, replacing individual letters and logos within the same structural casing or frame, or repainting a sign face, and does not permit changes to the structure, framing, erection or relocation of the sign unless such changes conform to subsection “i” above.
- C. Temporary or portable signs shall not be designated a legal nonconforming sign. Portable signs altered to be made non-portable shall still be considered to be portable unless such sign receives a permit in accordance with the permanent, on-premises identification sign regulations.

2. Determination of Legal Nonconformity.  - iv. The sign is part of an establishment that discontinues its operation or has been abandoned for a period of 2 years.
 - v. A legally established nonconforming sign which has been damaged by fire, explosion, act of God, the public enemy or voluntarily, that severs all or part of the supporting structure(s), or posts in the ground, the sign structure shall not be restored except in conformity with the setback regulations herein. The sign case or panels containing the sign face may be reused or repaired if damaged by less than 75% of the sign area as calculated in [Figure 6.3.2.E.ii](#). If the sign case or panels containing the sign face are damaged or destroyed by 75% or more of the sign area, then the sign and its supporting structure(s) or posts shall lose its nonconformity status and comply with all requirements contained herein.

4. Maintenance and Repair of Nonconforming Signs.

All existing nonconforming signs shall be kept in a state of good repair, good working order, and in a safe condition, free from fading, peeling paint, broken, cracked or missing faces, rotting/decaying supporting structures or frames, improperly or partially functioning lighting fixtures, or other aesthetically displeasing characteristics.
- B. The Zoning Inspector shall be authorized to make a determination of whether a legally nonconforming sign is properly maintained and does not endanger the public or constitute a nuisance.

The Board shall adopt from time to time such rules and regulations as it may deem necessary to carry into effect the provisions of this Resolution. Board Members are subject to Ohio Ethics Commission code of ethics as it applies to individuals serving on local government boards and commissions and shall recuse themselves from participating in a hearing if they are an adjoining or abutting property owner or leasee of any case as follows:
- i. The property they own or lease is zoned A, R-1, C-1, C-2, C-3, M-1 or M-2, the member shall recuse themselves from any case within a 500' radii of the property they own or lease.

Should the vote of the Board result in a tie vote, the application shall be placed on the next agenda.

2. Powers and Duties. The Board of Zoning Appeals shall have the following powers and responsibilities:

- A. **Appeals:** To hear and decide appeals where it is alleged there has been an error in any interpretation, order, requirement, decision, or determination by the zoning inspector in the enforcement and administration of the Resolution.
- i. An appeal to the Board may be taken by any person aggrieved or by an officer of the Township affected by any decision of the Zoning Inspector. Such appeal shall be taken within twenty (20) days after the decision, by filing with the Zoning Inspector and with the Board a notice of appeal specifying the grounds thereof. The Zoning Inspector shall forthwith transmit to the Board all of the papers constituting the record upon which the action appealed from was taken.
 - ii. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Zoning Inspector shall certify to the Board of Zoning Appeals after the notice of appeal shall have been filed with it that by reason of facts stated in the certificate, a stay would, in their opinion, cause imminent peril to life or property, in which case, proceedings shall not be stayed otherwise than by restraining order which may be granted by the Board or by a court of equity, after notice to the office from whom the appeal is taken and on due cause shown.

iii. In exercising their duties to hear an appeal, the Board may reverse or affirm, wholly or partly, or may modify the order, requirements, decision, or determination appealed from, and may make such order, requirement, decision or determination as in its opinion ought to be made on the premises; and to that end, shall have all powers of the Zoning Inspector.

B. Special Exceptions. To hear and decide the following special exceptions:

- i. Permit the reconstruction of a nonconforming building which has been damaged by explosion, fire, act of God, or the public enemy to the extent of more than seventy-five (75) percent of its fair market value where the Board finds some compelling necessity requiring a continuance of the nonconforming use and the primary purpose of continuing the nonconforming use is not to continue a monopoly.
- ii. Permit the modification of the automobile parking space or loading space requirements where, in the particular instance, such modification will not be inconsistent with the purpose and intent of such requirements; or permit (1) the waiver of the requirement that automobile parking space be provided on the same lot with a dwelling, if other suitable and convenient parking space is available within or without a building; or (2) the dual use of parking facilities (i.e. by stores during the day and theaters during the evening) provided there is no overlapping of use and the parking space requirements for each building or use are complied with during each period.

C. Variances. The Board shall have the power to hear and decide such variances from the provisions or requirements of this Resolution as will not be contrary to the public interest. There are two types of variances which the township may grant: an area variance and a use variance. The factors to be considered by the Board of Zoning Appeals differ for the two types of variances.

i. **Area Variance**. An area variance is a departure from the provisions of the zoning resolution usually relating to setbacks, side yards, height, frontage/ lot width, and lot size. These variances relate to the physical characteristics of the property. Strict enforcement of the zoning requirements for the specific lot would present "practical difficulties", basically making the property unusable.

The factors or standards to be considered and weighed for an area variance include, but are not limited to the following:

- a. Whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variance.
 - b. Whether the variance is substantial.
 - c. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer a substantial detriment as a result of the variance.
 - d. Whether the variance would adversely affect the delivery of governmental services (for example, water, sewer, garbage).
 - e. Whether the property owner purchased the property with knowledge of the zoning restriction.
 - f. Whether the property owner's predicament feasibly can be obviated through some method other than a variance.
 - g. Whether the spirit and intent behind the zoning requirements would be observed and substantial justice done by granting the variance.
- ii. **Use Variance**. A use variance involves the development or conversion of land for a use not permitted in the specific zoning district. The factors or standards applied to a use variance are those related to the concept of "unnecessary hardship".

A use variance must not be contrary to the public interest and the board of zoning appeals must ensure that the spirit of the zoning resolution is observed. In other words, the use requested is consistent and harmonious to the existing uses. In addition, all of the following conditions must also be found to exist:

- a. The special circumstances or conditions applying to the building or land in question are peculiar to such lot or property and do not apply generally to other land or buildings in the vicinity and were not created by the applicant.

- b. The granting of the application is necessary for the preservation and enjoyment of a substantial property right and not merely to serve a convenience to the applicant.
- c. The authorizing of the variance will not impair an adequate supply of light and air to adjacent property or unreasonably increase the congestion in public streets or increase the danger of fire or imperil the public safety or unreasonably diminish or impair established property values within the surrounding areas, or in any way impair the health, safety, convenience, or general welfare of the inhabitants of the Township.

D. Conditional Uses. The Board shall have the power to hear and decide Conditional Uses as outlined in Section 7.11 of this Resolution.

- 3. **Burden of Proof**. The applicant shall be required to present by preponderance of reliable, probative, and substantial testimony and evidence that supports the applicants' request for a variance or Conditional Use Permit.
- 4. **Summary**. In either type of variance request, the variance as granted shall be the minimum variance necessary to accomplish the reasonable use of the land or building. The granting of a variance is valid for a period of one (1) year, and upon the expiration of such period shall automatically be deemed revoked, unless a building permit for such erection or alterations is obtained and the work is started within such period, or, where no erection or alteration is necessary, the permitted use is established within such period, or an extension is requested in writing and granted by the Board.

The Board may attach conditions and require such guarantees or bonds as it may deem necessary to assure compliance with the objectives of this Resolution. Failure to comply with the conditions of a decision shall be deemed a violation of this Zoning Resolution.

- 5. Procedures for approval for all Board of Zoning Appeals functions including Appeals, Variances, Special Exceptions and Conditional Use are outlined in Section 7.10.

SECTION 7.10

BOARD OF ZONING APPEALS REVIEW & APPROVAL PROCEDURES

1. Applications for appeals, variances, conditional uses, or special exceptions shall be filed with the zoning inspector upon forms and accompanied by such data and information as prescribed by the township. A fee as determined by the Board of Township Trustees shall be paid upon the filing of each application for the purpose of defraying the costs of the proceedings.

The applicant shall supply the necessary names and addresses of property owners within, contiguous to, and directly across the street of the property in question to the Township Zoning Inspector. The names and addresses shall be obtained from the County Auditor's current tax list or the Treasurer's mailing list. The failure to deliver all of the property owners' names and addresses will not invalidate the action taken by the Board of Zoning Appeals.

2. The Board shall hold a hearing of an appeal, variance, conditional use, or special exception giving at least ten (10) days public notice thereof in a newspaper of general circulation in the Township and at least ten (10) days notice to parties having proprietary interest in land within, contiguous to, and directly across the street from the property involved and decide upon the appeal, variance, conditional use, or special exception application within 30 days after it is submitted. At this hearing, any party may appear in person or by attorney.

The Board shall hear any owner of property adjacent to the lot for which the granting of any zoning permit is pending and shall also hear any other parties having substantial interest as determined by the Board. The Board may request the attendance of witnesses and may require the production of documents, under such regulations as it may establish. The Board may also call upon the various officials of the County for assistance and may also make use of such consultants as the Board deems necessary.

3. Upon the day for hearing any application or appeal, variance, conditional use, or special exception, the Board may adjourn the hearing in order to obtain additional information, or to cause such further notice as it deems proper to be served upon such other property owners as it decides may be substantially interested in the appeal, variance, conditional use, or special exception. In the case of an adjourned hearing, persons previously notified, and persons already heard need not be notified of the time of resumption of said hearing unless the Board so decides.

The Board shall finalize the decision on all appeals, variances, conditional uses, or special exceptions at their next regularly scheduled monthly meeting. If such meeting has been cancelled, then a special meeting shall be called for the purpose of approving meeting minutes and signing the Decision sheets. A certified copy of the Board's decision shall be transmitted to all parties in interest. Such decision shall be binding upon and observed by the Zoning Inspector, and Zoning Inspector shall incorporate the terms and conditions of the same in the permit to the applicant or appellant, whenever a permit is authorized by the Board.

In exercising their duties to hear an appeal, variance, conditional use, or special exception, the Board may reverse or affirm, wholly or partly, or may modify the order, requirements, decision, or determination appealed from, and may make such order, requirement, decision or determination as in its opinion ought to be made on the premises; and to that end, shall have all powers of the Zoning Inspector from whom the appeal is taken.

4. The Board shall keep minutes of its proceedings, showing the vote of each member upon each question; or, if absent or failing to vote, indicating such fact; and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Board of Trustees and shall be a public record.
5. Any party adversely affected by a decision of the Board may appeal to the Court of Common Pleas as permitted by law.
6. No new application for a variance or Conditional Use that has once been denied in whole or in part by the BZA shall be submitted again to the BZA for a decision, unless new facts, material issues or substantial changes have been made in the proposal that formed the basis of the case.

SECTION 7.11 CONDITIONAL ZONING CERTIFICATE

The Board of Zoning Appeals shall have the duty to hear and decide applications for conditional zoning certificates where they listed in Subsection “C” of the respective zoning district in Article 3 of this resolution.

1. **Requirements for Issuance of Conditional Zoning Certificates.** The Board of Zoning Appeals shall determine that the general standards pertinent to each conditional use indicated herein shall be satisfied by the establishment and operation of the proposed conditional use. The Board of Zoning Appeals may also impose such additional conditions and safeguards as it deems necessary for the general welfare, for the protection of individual property rights, and for insuring that the intent and objectives of this Resolution will be observed, including specified limitations as to future expansion.

The Board of Zoning Appeals has no obligation to approve a Conditional Use. This zoning resolution assumes that the uses listed as Conditional Uses are not appropriate unless an applicant proves that the use will not be detrimental to the public health, safety, or general welfare of the Township or the neighborhood in which it is proposed. Applicants shall prove that potential negative impacts of elements such as location, size and extent of facilities and operations, site design, traffic generation, site access, and potential impact upon public facilities will be adequately addressed.

2. **General Requirements.** The Board of Zoning Appeals shall review the particular facts and circumstances of each proposed use in terms of the following standards and shall find adequate evidence that such use in the proposed location:
 - A. Will be harmonious with and in accordance with the general objectives or with any specific objective of a comprehensive plan;
 - B. Will be designed, constructed, operated, and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that such a use will not change the essential character of the same area;
 - C. Will not be hazardous or disturbing to existing or future neighboring uses;
 - D. Will not be detrimental to property in the immediate vicinity or to the community as a whole;
 - E. Will be served adequately by essential public facility and services;
 - F. Will have vehicular approaches to the property which shall be so designated as not to create an interference with traffic on surrounding public/private streets or roads.
 - G. In considering an application for conditional use, the Board shall give due regard to the nature and condition of all adjacent uses and structure.
3. **Approval, Expiration & Revocation.**
 - A. An approved conditional use will be for a period of one year provided substantial progress and completion is made unless an extension has been granted by the Board. A maximum of two (2), six (6) months extensions are allowed if the scope of the approval has not changed, and the proposed use and site plan still satisfy the decision standards.
 - B. Failure to complete or make substantial progress on the approved use shall result in the expiration of its authorization and require a new application.
 - C. Zoning permits shall not be issued unless the plans substantially conform to those approved by the Board of Zoning Appeals, including conditions.
 - D. A Conditional Use permit shall be valid and run with the land, provided substantial progress and completion is made, only for the specific use and location approved and in accordance with any conditions approved.
 - E. A Conditional Use Permit shall automatically expire if the Conditional Use ceases operation for more than one year.
 - F. A Conditional Use Permit may be revoked by the Board of Zoning Appeals if the existing Conditional Use Permit fails to meet one of the following requirements:
 - i. The conditions of approval are not met or maintained.
 - ii. The continuance of the conditional use would pose a substantial risk to the public health, safety and welfare. Notification will be provided to all who are entitled to such notice.

4. **Modifications to a Conditional Use.** Modifications shall be classified as a minor or major modification based on the following:
- A. Minor Modification:
 - i. Does not change the use or density to a more intense use or density than permitted by the approved plan; and
 - ii. Does not change the location or amount of land designated for a specific land use; and
 - iii. Are of a magnitude that will not substantially alter the appearance of the use from off of the site; and
 - iv. Will not substantially or detrimentally affect the provision of public services to the site or general vicinity; and
 - v. Will not substantially or detrimentally increase potential demand on public or private utilities; and
 - vi. Are not of a scope, scale, or character, that would cause a negative impact on adjoining properties and neighborhood; and
 - vii. Are not contrary to and in no way diminish the intent of the originally approved permit.
 - B. Major Modification:
 - i. An increase in density or intensity; or
 - ii. Changes to the property or project boundaries; or
 - iii. Anything not classified as a minor modification above.
 - iv. A major modification requires an entirely new Conditional Use application (including the fee), according to the provisions of this section.
 - C. Review of Modifications. If an applicant proposes to modify an approved Conditional Use the applicant shall submit the proposed modifications to the Zoning Inspector, supplemented with a written statement describing the modifications. A Minor Modification may be reviewed administratively and approved by both the Zoning Inspector and Board of Zoning Appeals Chair. Administrative approvals shall be clearly documented and made part of the original Conditional Use permit on file and placed on the Board of Zoning Appeals agenda as an informational item. Any changes to a Conditional Use that are not approved by the Zoning Inspector or Board of Zoning Appeals shall constitute a violation of the Zoning Code.

SECTION 7.12 NONCONFORMING USES

1. **Purpose.** The purpose of this section is to (1) define the legal status of buildings or land uses which do not conform to this Resolution but which were in operation prior to the enactment of this Resolution and (2) to provide either for the conversion of nonconforming uses into conforming uses as soon as reasonably possible or for their eventual and equitable elimination.
 - A. It is not the intention herein to classify as nonconforming, a use allowed in a district as a conditional use under the regulations of this Resolution.
 - B. Regulations pertaining to nonconforming signs can be found in [Article 6, Section 6.8](#).
2. **Continuation of Use.**
 - A. Any lawful uses of buildings and/or land existing at the effective date of this Resolution may be continued, even though such use does not conform to the District provisions, except as otherwise provided herein.
 - B. Whenever the use of a building and/or land becomes nonconforming through a change in the amended Zoning Resolution or in the District boundaries, such use may be continued, except as otherwise provided herein.
 - C. Any building arranged, intended, or designed for a nonconforming use, the construction of which has been started at the time of the passage of this Resolution, but not completed, may be completed, and put into such nonconforming use, provided it is done within one (1) year after this Resolution takes effect.
3. **Modifications.**
 - A. The addition to or enlargement of a nonconforming building or structure shall be permitted provided it contains a permitted use and such addition or enlargement does not exceed twenty (20%) percent of the floor area contained in the original building or structure at the time of the adoption of this Resolution. All other requirements of the District (lot area, yards, etc.) shall be met unless a variance is obtained.
 - B. Any structure moved or relocated on a lot, in whole or in part, shall thereafter conform to the setback requirements of the zoning district in which it is located, unless a variance is obtained. A structure may be lifted in place and set back down in the exact same location.
 - C. A nonconforming use or structure which has been damaged by fire, explosion, act of God, or the public enemy or demolished, removed, or structurally altered voluntarily, to the extent of seventy-five (75) percent or more of the floor area contained in the building or structure at the time of damage shall not be restored, rebuilt or enlarged except in conformity with the regulations of the district in which it is located.
 - D. When damaged by less than seventy-five (75) percent of the floor area contained in the building or structure at the time of damage, a nonconforming use may be repaired or reconstructed, and used as before the time of damage, provided such repairs or reconstruction are started within one (1) year of the date of such damage.
 - E. A nonconforming use of land shall not be expanded or extended into any other portion of the lot or adjoining property.
4. **Discontinuance.**
 - A. After the effective date of this Resolution a nonconforming use which is discontinued for a period of two (2) years shall not again be used except in conformity with the regulations of the district in which it is located.
 - B. A nonconforming use may be changed to any use that is a permitted use in the zoning district in which it is located, or approved Conditional Use, subject to all standards and requirements applicable to the new use. Once a nonconforming use is converted to a conforming use it may not be changed back to a nonconforming use.
5. **Burden of Proof.**
 - A. An applicant for any development review procedure that deals with a nonconformity shall bear the burden of proof in demonstrating that the nonconformity of the property was a legal nonconformity on the effective date of this Resolution or at the time an amendment to the Zoning Resolution caused it to become a legal nonconformity.
